CAREER OBJECTIVE

Motivated Software Engineer with a background in Full Stack Development, Java, Spring Boot, RESTful APIs, and Microservices Architecture. Seeking opportunities to design, develop, and maintain high-performance software systems while applying strong problem-solving skills, contributing to technical decisions, and continuously growing as a software professional.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, HTML, CSS

Frameworks & Libraries: Spring Boot, React, React Native, JUnit

Databases: MongoDB

Development & Tools: Git

Backend Development: RESTful APIs, Microservices Architecture

Mobile Development: Android Application Development

Software Engineering: Full Stack Development, Backend Development, API Development

PROFESSIONAL EXPERIENCE

IT Instructor

Ralp-Tech Communication Nigeria Ltd, Keffi, Nasarawa State | 2019 – 2023

- Delivered lectures, workshops, and practical laboratory sessions on various IT topics.
- Designed lesson plans, assignments, examinations, and hands-on technical projects.
- Guided students through practical exercises and provided constructive feedback to improve their technical skills.
- Collaborated with curriculum developers and industry partners to support effective learning outcomes.
- Ensured compliance with institutional, legal, and ethical standards.

IT Instructor (NYSC)

National Youth Service Corps, Nasarawa State | 2018 – 2019

- Facilitated technology classes and supported students in developing practical IT skills.
- Assisted learners with hands-on computer and technology-related activities.
- Participated in community development initiatives focused on digital literacy.

EDUCATION

Professional Diploma in Full Stack Development (Software Engineering) — Completed

NIIT, Iponri, Lagos | 2024 – 2026

Bachelor of Science (B.Sc.) in Mathematics

University of Benin (UNIBEN), Edo State | 2013 – 2017

PROJECTS

BookApp — Open Source Contribution

- Developed the Eureka Server for microservices registration and service discovery.
- Contributed to the Composite App, supporting data aggregation from multiple microservices.
- Worked within a collaborative software development environment focused on microservices architecture.

QuizApp — Team Collaboration

- Contributed to backend development and implementation of RESTful APIs.
- Worked on frontend components using React.
- Collaborated with team members during the development and integration process.

CERTIFICATIONS & QUALIFICATIONS

- Professional Diploma in Full Stack Development (Software Engineering) — Completed
- Bachelor of Science (B.Sc.) in Mathematics — Certified
